

So what: we want strat sales to mature partnership with GPO to win big deals at scale

- Set the scene – the biz opportunity
- Hero story: aspiration of gpo
- The journey gets dark – anti pattern slide
- Coming out the other side – how we win together
 - Quotes for proof points: how did we win together - what you did as PL , what worked well with seller and what you need more of from sales side, plus photos from everyone
- India slide
- Next chapter / looking forward - the sequel

Capacity and stability challenges, despite **massive investments in AI** – *refer stock price movement*

Increasing **geopolitical tensions**, regulatory shifts, trade realignments and **lots of uncertainty**

Ruthless competition to win the AI era

AI is about outcomes (intersection of Industry and Tech) → **productivity** + reinvention of **workflows** + business processes

Opportunity vs speed/agility

GPO | Global Pursuit
Organisation

GPO Asia

Rebecca (Pursuit)

Julie (Sales)

Our Aspiration:

A Front-loaded execution — aligning Sales and Pursuit early so we eliminate late-stage deal loss, accelerate velocity, and increase win probability – maximising the return from our CV pipeline and capturing market share - CV/ACR/Usage.

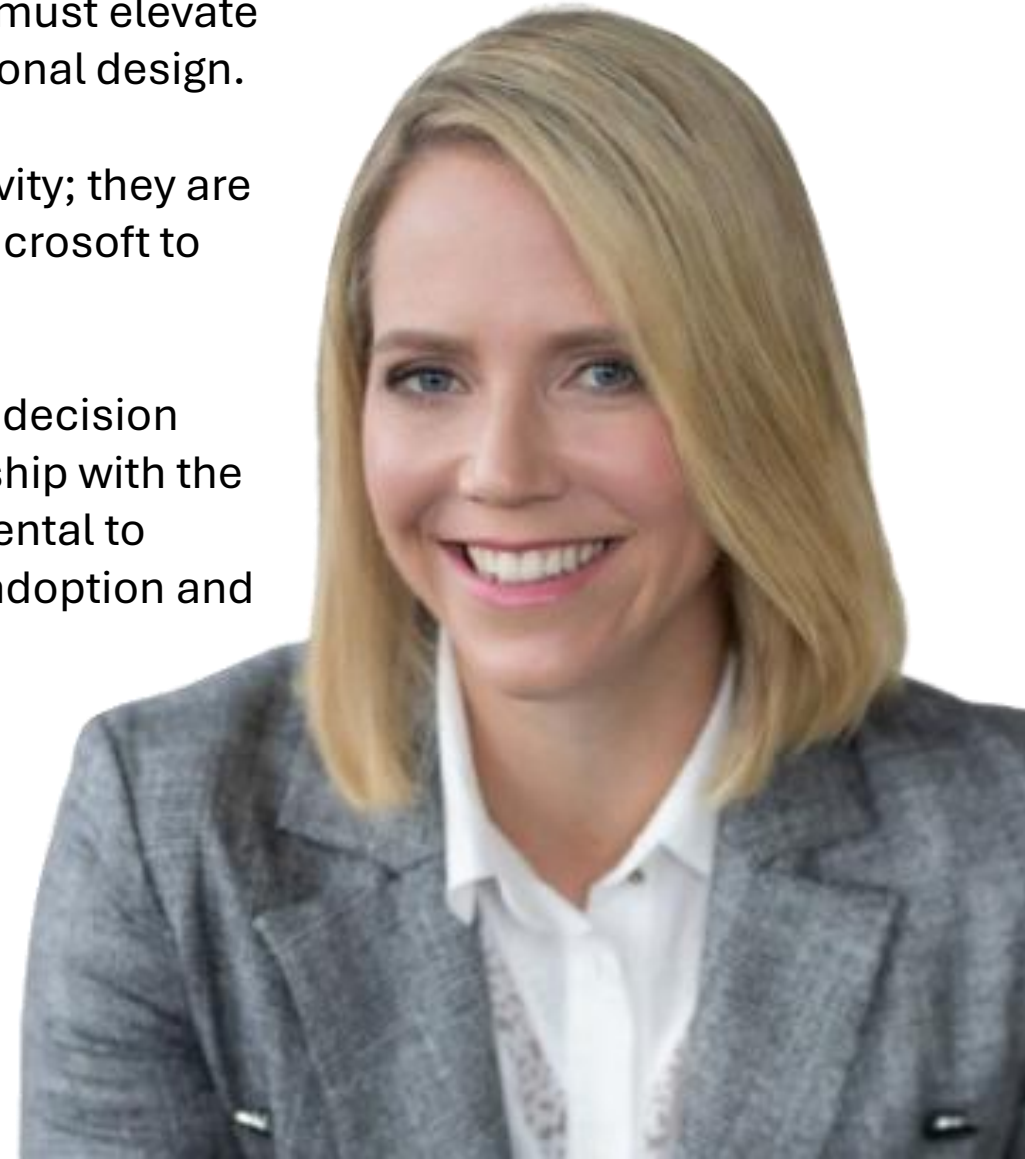

“In Asia, the scale and ambition of our pipeline continue to accelerate. To meet this moment — and to win the platform race in AI — we must elevate how we lead complex deals: earlier, together, and with intentional design.

Pursuit Leaders and Managers are not here to coordinate activity; they are here to architect the deal, shape the solution, and position Microsoft to win.

Capturing market share requires sharper deal shaping, faster decision velocity, and absolute clarity on our win themes. Our partnership with the Strategic Consulting Team and One Services Sales is fundamental to achieving this and ensuring Microsoft leads in both platform adoption and frontier consulting across the region.”

Rebecca

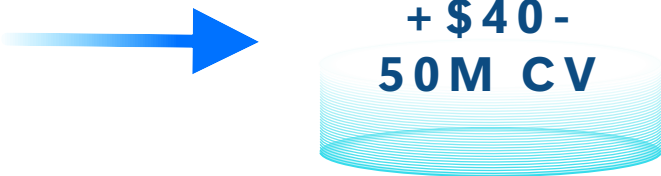

Asia is Booming. Together we can do even more – with what we have!

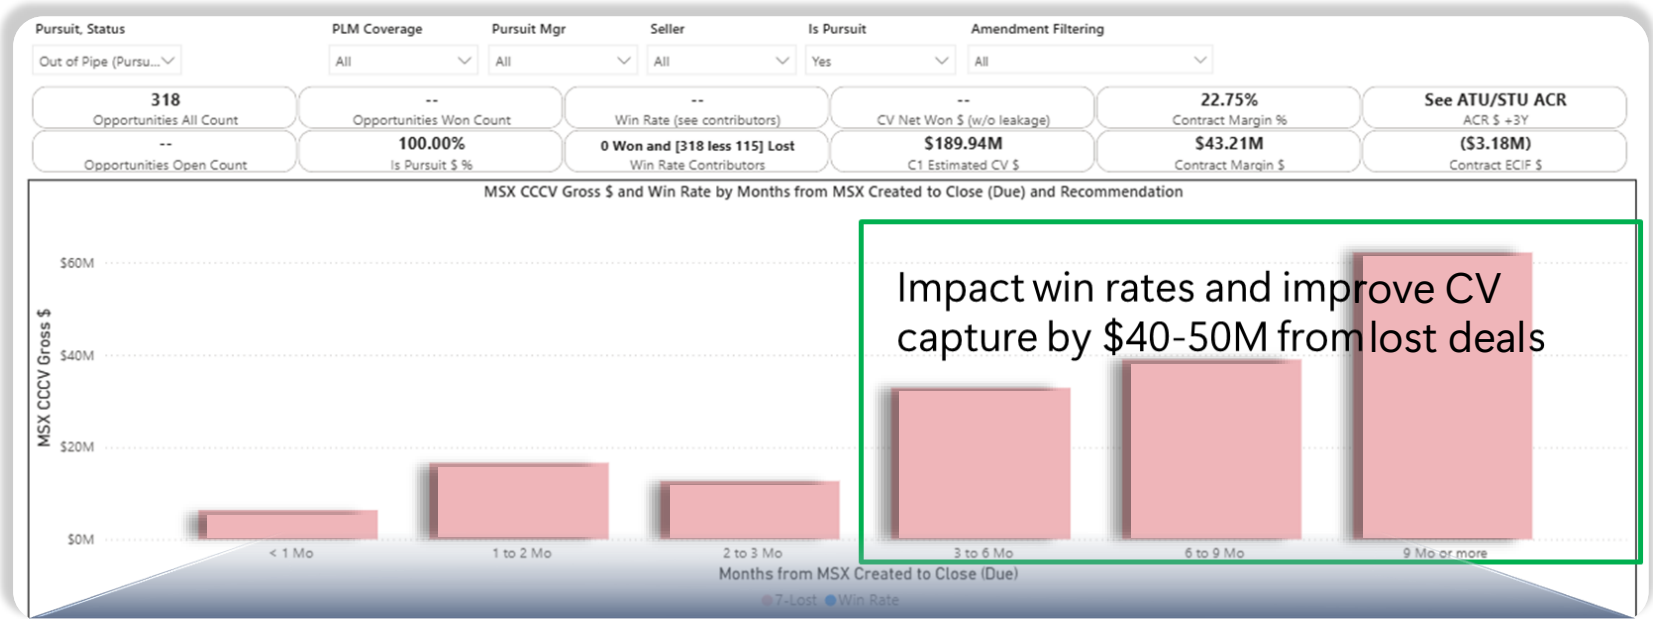

Opportunities for more:

Improve Deal Capture Rates
Sales Cycle >6 months Win Rate ~35%
Sales Cycle >9 months Win Rate ~20%

Increase the win rate for current pipeline > 6 month+ deals to untap our missed CV

Our missed opportunity:

ISD

- CV/Usage to ACR Growth
- Pre-sales productivity: Sales, Pursuit, Delivery
- NBUE ROI
- Team satisfaction & success

One Microsoft

- MACC & EA wins
- Consumption/ACR yield & acceleration
- Winning relationships
- Deal Velocity – Market share Capture

Where are our improvement opportunities?

What happens when ambition runs ahead of design and delivery?

Late engagement turns complexity into surprise — and surprise is what kills confidence, pace, and win probability

How We Win Large, Complex Deals: The Growth Framework

Early ambition + intentional deal design + delivery reality = higher win rates

Regional Sales

- SPT & Global Partnerships
- Large Deal Leadership depth
- Frontier Customer innovation
- Unlocking e2e ISD capability

Sales Leadership

- Sets customer ambition & urgency
- Owns executive access
- Shapes pipeline intent
- Robust qualification & market insight

Pursuit Leadership

- Leads Deal Design first
- Orchestrates ecosystem execution
- Champions deal quality & velocity
- Brings AI innovation to Pursuits

Pre-Sales Delivery

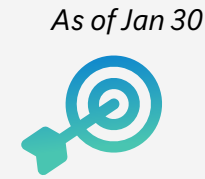

- Leverages strategic offerings & IP
- Grounds ambition in delivery reality
- Validates scope, risk & feasibility
- Ensures credible estimates & handoff

Pursuit Lead Manager (PLM): Scales Quality, Predictability, People Leadership & Sales Partnership across the portfolio

"This is how we expect large deals to be shaped in Asia — early, together, and deliberately."

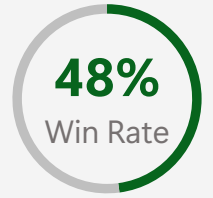

Proof of Execution

Key Wins (Dec 15 – Jan 30)

As of Jan 30

Total Win
256

BLUESCOPE

PL: Jenni Thorne
CV: 13.2M

Top PL Actions:

- Defined pursuit **strategy** & aligned the team around customer outcomes.
- Drove early specialist **engagement**, shaped the deal, with tight **governance**.
- Kept **momentum** under pressure, managing **risks** & securing **exec alignment**.

What Jenni is Proud of:

Leading through intense complexity & change with resilience, rallying the team who came together get it over the line.

MYOB

PL: Kellie Masters
CV: 9.5M

Top PL Actions:

- **Led governance**, unblocked approvals driving deal velocity
- **Accelerated** SOW/contract readiness for a 92-week transformation.
- **Unified all teams** into a single, aligned "One Services" motion while safeguarding commercials & compliance

What Kellie is Proud of:

Showing up as the steady force during chaos — bringing clarity, calm and true "One Services" unity when it mattered most.

COGNIZANT

PL: Debasish Mohanty
CV: 8M

Top PL Actions:

- **Structured a replicable scope**/SOW backlog under tight timelines.
- **Parallelized workstreams** and maintained **daily stakeholder alignment**.
- Led a **full "One Microsoft" execution** for a compliant complex MACC amendment.

What Deb is Proud of:

Shaping complex AI transformation amendment into an \$8.5M CCV win materially supporting the area, leading the deal construct with clarity and discipline.

INFOSYS

PL: Ajit Jere
CV: 4.2M

Top PL Actions:

- Closed \$6.2M Infosys Retainer + Copilot/Security deals.
- Ran **disciplined presales cadence** with **early risk visibility**.
- Introduced and **operationalised EA-style consulting** selling

What Ajit is Proud of:

Turning a complex pursuit into repeatable win motion with EA-led value storytelling through structure and early risk management.

Fast Retailing

PL: Teruhiko Asakura
CV: 1.3M

Top PL Actions:

- Secured ESAP, RAI and Security **approvals under tight Q2 deadlines**.
- Drove SOW creation and governance **alignment end-to-end**.
- Orchestrated stakeholders and **maintained deal velocity** across multiple parallel closings.

What Asakura-san is Proud of:

xxx

BHP

PL: Trudi Dibb
CV: 1.1M

Top PL Actions:

- Aligned FDE, commercial, legal & resourcing teams – no small feat for this new offering, and with a 2-week deadline.
- De-risked contract terms and drove SOW/ESWO reviews to keep contracting moving.
- Coordinated stakeholders & unblocked mobilisation to win and allow rapid delivery start

What Trudi is Proud of:

Turning a brand-new FDE model into a signed, mobilised deal by de-risking contracts and building BHP's confidence in Microsoft.

Partnership Success – Learnings from India

📍 In H1 we trialed a dedicated Sales-aligned Pursuit Lead Manager in India to support & enhance the established high-performance team.

Portfolio

- Deeply Sales-focused portfolio management & leadership
- India business partnership - Sales & Delivery
- Transformed Sales processes (ORB and Close Planning)
- Sales Enablement
- Supported Account Planning

Deal Based

- Support Customer relationships & discussions
- Leadership engagement on high value /complexity deals:
 - Coaching: sellers (deal & ATU strategy, commercial structures, customer messaging), Delivery (deal structure & commercials), Pursuit Leads (growth focus, sales alignment, leadership)
 - Process guidance (reviews/controls, commercials)
 - Pursuit structure & cadence driving deal urgency & action
 - Hands on intervention for blockers & delays

Seller Perspective – Hemant Singh – ITES Accounts

“ My sincere gratitude to the Pursuit Leads for their strong e2e ownership of complex pursuits across Infosys, Cognizant & Wipro.

Through **disciplined execution**, they consistently ensured deal readiness, quality & velocity.

Their deep **alignment with internal stakeholders** and **customer-centric solution shaping**—delivered in close partnership with Architects and Delivery teams—enabled **compelling win strategies**.

By upholding **rigorous governance** and high standards for pursuit artifacts and ORB readiness, they maintained **quality and compliance without compromising momentum**.

Their close collaboration with ISD field teams to **drive a single, disciplined close plan** ensured timely closure while preserving deal integrity and delivery readiness.

These wins exemplify the true value of Pursuit leadership: owning deal quality end-to-end, aligning stakeholders, driving execution discipline, and **enabling Microsoft to win AI-led transformation deals**. ”

Results: +3.2M VTB CV

Win Rate +15%

Deal Velocity +20%

Take aways

Pursuit Leads to orchestrate “**what will it take to *win the deal***” with recommendations for leadership buy-in and support

Asks:

- Sales Conduit for Pursuit to interlock between Sales & Pursuit
- Support PL Recommendations to ***Win the Deal***
- Adopt a Partnership Mindset with the Pursuit Lead on all Large Pursuits
- Champion best-practice Close Planning with Area Sellers
- Engage GPO LT early for sponsorship where needed

Appendix

Pursuit: AI-First Deal Design for Complex Growth

A global, AI-first capability accelerating deal velocity with confidence

Mission

- Simplify complex deals through **AI-led innovation, IP creation, and disciplined execution**

Global by Design

- Think global. Act local.
- Consistency at scale — **velocity and compliance**

ISD as Customer Zero

- AI-first consulting in action
- Rapid experimentation → reusable IP → faster outcomes

Governance that Accelerates

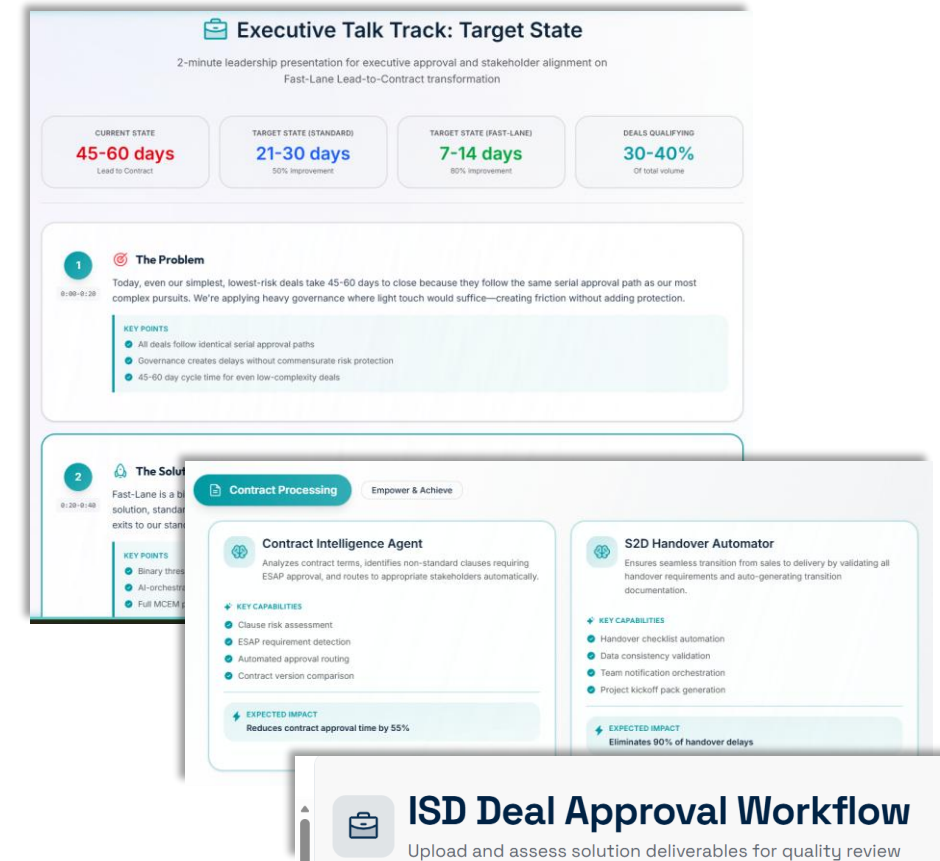

- WW ISD governance & change management
- Designed to **reduce friction**, not add it (*pending approval*)

Practitioner-Led

- Pursuit as a craft — building capabilities that drive **sales growth** and **operational excellence**

Integrated with Business Excellence

- Supporting C1 / MCEM simplification for ISD

**Example: AI-orchestrated pursuit workflow used by ISD*

Built with:

Copilot Studio · GitHub · Spark · Visual Studio

Outcome Focus:

Faster time-to-value · Predictable governance · Scalable execution
